BEST AVAILABLE IMAGES

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images may include (but are not limited to):

- BLACK BORDERS
- TEXT CUT OFF AT TOP, BOTTOM OR SIDES
- FADED TEXT
- ILLEGIBLE TEXT
- SKEWED/SLANTED IMAGES
- COLORED PHOTOS
- BLACK OR VERY BLACK AND WHITE DARK PHOTOS
- GRAY SCALE DOCUMENTS

IMAGES ARE BEST AVAILABLE COPY.

**As rescanning documents *will not* correct images,
please do not report the images to the
Image Problem Mailbox.**

[illegible]

FIG. 2F is a schematic diagram of a curved structure, possibly a segment of a ring or a curved beam. The structure is composed of several segments. A central segment is shaded with diagonal lines and is labeled 202. To its right is a curved segment labeled 205, which is further divided into two sub-segments labeled 208 and 209. To the left of the central segment is a trapezoidal segment labeled 203. Below segment 203 is a long, curved segment labeled 204, which ends in a wavy, sawtooth-like pattern. An arrow labeled 201 points downwards towards the central segment 202.

FIG. 2K

FIG. 2L is a cross-sectional view of a device assembly. It shows a vertical rectangular component 253 with a horizontal flange 254 at the top. A circular component 255 is mounted on the flange. A dashed line indicates a cross-section of the assembly. A small circular component 256 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 257 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 258 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 259 is shown separately, with a dashed line indicating its position relative to the main assembly.

FIG. 2M is a cross-sectional view of a device assembly. It shows a vertical rectangular component 263 with a horizontal flange 264 at the top. A circular component 265 is mounted on the flange. A dashed line indicates a cross-section of the assembly. A small circular component 266 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 267 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 268 is shown separately, with a dashed line indicating its position relative to the main assembly. A small circular component 269 is shown separately, with a dashed line indicating its position relative to the main assembly.
